SPECIALISTS IN LIQUID AND POWDER BLENDING, REPACKAGING, WAREHOUSING AND DISTRIBUTION.
BORREGAARD UK

Borregaard holds strong global positions in selected niches of specialty chemicals, fine chemicals and ingredients. In these core business areas, Borregaard pursues a targeted long-term strategy focused on products that are highly processed and offer possibilities for specialisation.

It is in this area of processing that we offer the service of Borregaard UK Ltd. The production facility in the UK is located just outside of Warrington in Cheshire and situated close to the junction of the M6 and M62, ideal for access to all parts of the country.

If you have a need to out-source some or all of your processing / warehousing requirements then please read on.

ORGANISATION

Borregaard UK whilst supported by a larger organisation offers a national service with extensive experience in liquid and powder chemical processing, supply and distribution, having served customers for over 25 years. An in-house quality control laboratory and production facility are equipped with experienced personnel to ensure that products are despatched to customers according to specification.

Experienced Customer service staff are at your disposal to handle your orders using state of the art, CRM and SAP systems. Borregaard UK staff have developed extensive knowledge in serving a variety of industrial application areas such as Ceramics, Building Industry, Feed and Speciality Chemicals. Borregaard UK, with its well established haulage supply connections can offer an extremely fast turnaround service. Whether it be bulk road tanker, bulk silos, full container loads, pallet loads, IBC’s, drums or even 25kg sacks Borregaard UK can meet your requirements at short notice.

Whilst the business enjoys the use of state of the art systems we have the additional benefit of being able to source professional services from other companies within the group.

Borregaard UK also has the benefit of operating to the following quality standards …

- BS EN ISO 9001:2000 - accredited to this standard since the early 1990’s
- FEMAS - accredited for the supply of animal feed additives
